A

To install on the stand, bag must have an opening through the middle from top to bottom. To do this, first lay flat on the ground.

B

Reach your arm through the bag from top to bottom and extend your hand out of the bottom hole. Line the hole up with the tree stand color and install.

C

BOTTOM OF THE BAG

D

**NEED LONGER STRAPS?
ADD PART I TO EXISTING STRAPS**

E

Flip the stand over and arrange the fabric so you can see the drawstring skirt near the bottom of the bag. Tuck the excess fabric into the skirt evenly around the perimeter of the stand.

F

Tighten the drawstring to neatly seal the excess fabric under the skirt.

CAUTION

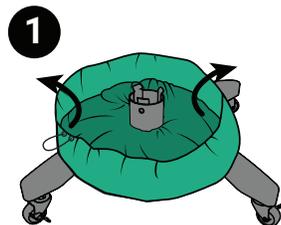

DO NOT lean the bag on its side and pull all the weight of the tree on one or two legs. Doing so could cause damage your tree stand, tree, or yourself. **ALWAYS** use caution when leaning the tree over. **DO NOT** put too much pressure on the stand while tipped as this could result in damaging the trunk of the tree. Use **CAUTION** when lifting the tree as it may be heavy. Use **EXTREME CAUTION** when moving the tree up or down stairs. Whenever possible, **USE TWO OR THREE PEOPLE TO STORE YOUR TREE.**

HOW THE UPRIGHT TREE BAG WORKS

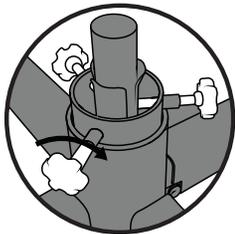

The bag pushes up on the hinged branches and compresses them into a vertical position. Sometimes the bottom branches are the hardest to get started because they're the largest.

MY TREE PULLS OUT OF STAND WHEN TRYING TO PULL THE BAG UP.

Make sure the collar knobs are very tight.

DOES IT SEEM LIKE YOUR BAG IS TOO SMALL?

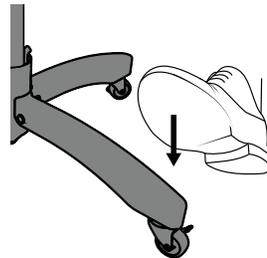

Always Use 2 People

Make sure that all of the buckles, zippers and straps on both sides are undone.

Start by pulling up on one side first, then work your way around to the other side.

Apply pressure to the stand to keep it stable when pulling up.

Make sure the bag is not twisted when pulling up. Untwist and continue to pull up.

MY BAG IS STUCK! I CAN'T PULL IT DOWN TO SKIRT POSITION.

Let the skirt hang down as far as it can.

Make sure all the Buckles, Zippers and straps are opened.

Reach your hand inside the bag and press the branch tips inward and tug down the bag to free it from the branches. Repeat this step and work your way around the tree.
